Hiring Manager

Administrative Office of the Courts

Olympia, WA

Subject: Application for Software Developer – Job #2026-16

Dear Hiring Manager,

I am writing to express my interest in the Software Developer position (Job #2026-16) at the Administrative Office of the Courts. With over eight years of experience designing, developing, and deploying complex information systems, I bring a strong technical foundation in C#, .NET Core, ASP.NET Core, and SQL Server, along with a proven ability to deliver secure, high-performing software solutions.

In my most recent role at Staples, I collaborated closely with project managers and business analysts to implement agency-wide software solutions within the SDLC framework. I designed complex SQL stored procedures, utilized SQL Server Reporting Services to generate actionable insights, and performed rigorous unit and system testing to ensure high-quality deliverables. I have a demonstrated ability to proactively monitor system performance, troubleshoot complex issues, and document technical solutions for operational teams.

What excites me about this opportunity is the chance to contribute to the Washington Judicial System's mission by supporting mission-critical Juvenile Court systems. I value integrity, accountability, inclusion, and teamwork—core principles I see reflected in the AOC. I am fully authorized to work in the United States and do not require any visa sponsorship now or in the future.

I am confident that my combination of technical expertise, problem-solving skills, and dedication to delivering high-quality software makes me a strong fit for this role. I would welcome the opportunity to discuss how I can contribute to the success of the Administrative Office of the Courts.

Thank you for your time and consideration. I look forward to the opportunity to speak with you.

Sincerely,

Nanda Rampura
